

## **Forme miste da stampare – istruzioni per l'uso**

Nel file *Forme miste da stampare* si possono trovare 198 immagini di figure piane, organizzate in 33 pagine, ciascuna delle quali contiene 6 riquadri numerati.

Le immagini sono state pensate per sostituire le forme in gomma crepla presenti nel kit, per quelle situazioni in cui non si dispone del tempo e/o del budget necessario per ricostruirle autonomamente.

Stampando e ritagliando le 33 pagine (eventualmente in più copie, a seconda di quanti gruppi di ragazzi si vogliono far lavorare) si dispone di un mazzo di carte che si può utilizzare al posto del sacco delle forme in gomma crepla.

I riquadri sono numerati per facilitare l'identificazione e il confronto (per esempio: il confronto fra i diversi raggruppamenti di forme a cui possono arrivare diversi gruppi di lavoro).

Naturalmente lo stesso mazzo (eventualmente ristretto o allargato in maniera opportuna) può essere utile anche in altre attività laboratoriali: segnalateci le vostre proposte!
